BESIII

Saturday 08 April 2023

Session I: Chair Prof. - (08:30-10:10)

| time  | title                                                                              | presenter   |
|-------|------------------------------------------------------------------------------------|-------------|
| 08:30 | BESIII Lambda_c                                                                    | ,           |
| 08:50 | BESIII Lambda_c                                                                    | GENG, Cong  |
| 09:10 | TF-PWA Lambda_c                                                                    | ,           |
| 09:30 | Equivalent SU(3) flavor approaches for two-body anti-triplet charmed baryon decays | ,           |
| 09:50 | Some Theoretical Progresses in Charmed Baryon Weak Decays                          | XU, Fanrong |
